

As a long time resident of East Norwalk, CT i ask you to not pass the following: H.B.NO.5429 AND H.B.NO.5361: These bills will have a negative impact on our community: There are already to many projects that are choking our roads and filling up what little open space we have: I am not interested in having to live in an extension of New York city: Zoning laws were put in place to control the amount and type of building in a given town: What about the extra water, garbage, waste, that will occur? Please say NO: As to beach access: Say NO. We pay a lot of tax to live here to use our beaches and waterways: Non-Residents will only clog up the roadway, make an impact on waste, garbage, water etc: So please do not pass these bills: Thank you, John C Kern, resident of East Norwalk, CT.
